CANTON SCREENS

*MADE OF
CYPRESS*

Manufactured and Sold by
Canton Planing Mill Company
CANTON, MISSOURI

Catalog No. 22

TO THE TRADE:

The CANTON line of screen goods, as shown in this catalog, evidences strength, durability, and beauty. All of these attributes lead to ready sales.

Our stock is at all times complete, and we are thus enabled to make prompt shipments.

Our Fancy Doors are made of CLEAR CYPRESS, the most lasting wood for that purpose. They are smoothly sandpapered, and varnished by hand with two coats good exterior varnish.

Designs No. 7, 8, and 9 are also made of Cypress, the same as the fancy doors. They are well sandpapered, and then painted by hand with two coats of either green or black paint.

We believe the continual increase in demand for CANTON screen goods is largely due to the courtesy of our management, our prompt service and good materials carefully manufactured.

It is with pleasure that we present this new catalog, the prices applying to which will be found in our quotation sheet.

We are certain that a trial order from you will be the means of adding your name to the long list of our thoroughly satisfied customers.

Sincerely yours,

CANTON PLANING MILL CO.

Canton, Mo.

Window Screen No. 30

Half size, for outside. $1\frac{1}{8}$ inch thick.

Window Screen No. 31

Full size for outside. $1\frac{1}{8}$ inch thick.

Directions for Ordering

Give number of each size wanted. Give exact measurements of space to be filled by the screens, naming the width first. Also give size and number of glass in the windows. Give thickness of screen and state what kind of wire cloth is wanted.

Information

The mortise and tenor construction, most expensive but without doubt the best, is used on all designs of CANTON screen doors.

Unless otherwise specified Nos. 7, 8 and 9 will be shipped painted green.

We make all stock screen doors 1 inch longer than listed sizes, to allow for threshold and slant of door sill.

We do not add 1 inch to odd size screen doors, but make them exact size given.

When orders for window screens are given in glass measure, we make them 1 in. longer than regular height of windows.

When outside dimensions are given, we make them exact size ordered.

We make all full size window screens $1\frac{1}{8}$ in. thick, paint them two coats green paint and cover them with black wire cloth, unless otherwise ordered.

If you have a house or porch to screen, would be pleased to have you submit list of sizes for our price.

See our quotation sheet for very interesting prices on these goods.

We make prompt shipment. Our goods are the best.

WEIGHTS

Below you will find approximate weights of screen doors herein illustrated, which will enable you to figure about the cost of goods laid down at your station.

	Wt. per doz.
Common $\frac{7}{8}$ in. Screen Doors.....	180 lbs.
Common $1\frac{1}{8}$ in. Screen Doors.....	220 lbs.
Fancy $1\frac{1}{8}$ in. Screen Doors.....	250 lbs.
